August 2018

PRESS RELEASE:

CAS Makes the Inc. 5000 List for 2018 !

Cast Aluminum Solutions has made the 2018 Inc. 5000 list of Fastest Growing private companies in America ! CAS is proud to announce that it has achieved the revenue growth necessary to be included on this prestigious list for the second time. CAS initially made the Inc. 5000 list in 2013 and is very happy to accomplish the rare task of repeating.

Making the Inc. 5000 list is a challenging task and involves increasing revenue growth over several years. Only those businesses with a true entrepreneurial spirit make the list. The list represents a unique look at the most successful companies within the American economy's most dynamic segment - its independent businesses.

Rick Ahern, COO of CAS, commented, "The real keys to CAS making the Inc. 5000 list are our customers and employees. The partnership and trust of our customers represents the core of our success. And internally - yes we do have great products, along with stringent production processes - but those factors are all driven by our outstanding lineup of engineers, technicians, representatives and support staff."

A link to the Cast Aluminum Solutions profile on the Inc. 5000 website can be seen here:
